iPhone

1. Go to the App Store and search "V-TAS".
2. Click **Get** on the **V-TAS by VTV Solutions** app, then click **Install**.

3. Once the app has downloaded click **OPEN** or open the app from your home screen.

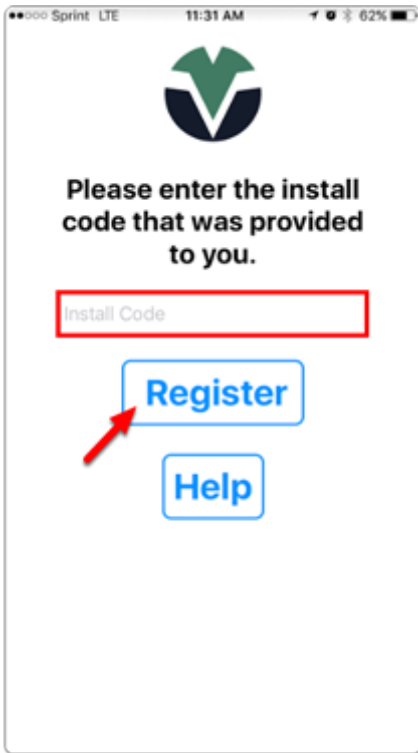

4. Once the app is open a pop-up will ask you to "Allow "V-TAS" to access your location even when you are not using the app?" Click **Allow**. This is required for the app to work properly.

5. Enter the install code that has been provided to you by the dispatch company and click **Register**. If the install code is not working make sure you have entered it correctly and then contact the dispatch company for assistance. Only the dispatch company can confirm your install code.
