

UPRR Automotive Facility Inspection Verification Process and Policy

Effective: **5/1/23**

Mira Loma, CA

Normal Hours of Operation

Third Party Inspection Service will be on-site and available for verification 24 hours a day 7 days a week.

Third Party Inspection Service will track all hours of operation for 60 days and adjust accordingly. Weekend coverage will be provided based on volume and agreement between the UPRR and haulaway carrier.

All load sheets with vehicles that are leaving the compound will be made available to Third Party Inspection Service. The third-party inspection service is responsible for retaining the original load sheets on vehicles exiting the facility for a period of one year.

Verification Procedure

Third Party Inspection Service will be adequately manned and available to drivers in the yard. **All damage exceptions, regardless of severity, are to be verified in-bay 24/7.** There will be one verification inspection performed. Third Party Inspection Service will verify the damage, stamp each individual vehicle and the corresponding damage. The load sheet must contain the corresponding damage code using the standard 5-digit damage codes and should not be altered after stamp is present. There will be no supplemental damages entered if the vehicle has been moved from the original bay position or location.

The Third-Party Inspection Service is the only party authorized to transmit 04 damage exceptions noted at the Union Pacific Automotive facilities. Adherence to this policy will ensure prompt, accurate, and equitable settlement of our customer’s claims. It will also ensure accurate collection, recording and analysis to help eliminate future damages.
