Original load sheets and bay tags must be left with the security guard upon exiting the terminal. If using EPOD/Magnus, no load sheet is required. Bay tags **MUST** be turned into the guard and EPOD load list transmitted to CSX **PRIOR** to arriving to the outgate guard shack.

DRIVER HAS THE RESPONSIBILITY to ensure that **ALL** verified damages are noted on EPOD/Magnus. **Incorrectly coded damages will not be entered.**

DAMAGE VERIFICATION SCHEDULE

Haulaway drivers are responsible for properly entering **ALL** damages on the load sheet and/or EPOD device (Magnus). Inaccurate reporting of damage severity on a load sheet or EPOD device could result in claim exposure for the haulaway carrier.

Security guard will date and time stamp **ALL** load sheets and secure in lockbox upon load outgating from terminal.

Vehicle damages meeting the following criteria **MUST BE VERIFIED IN THE BAY** by the unloading contractor or authorized agent of TDSI/CSX.

ALL DAMAGES identified **BELOW MUST** be **PHYSICALLY VERIFIED IN BAY** or **DROPPED** from the load. Otherwise, they will not be honored or entered into the system.

- **3 or MORE** exceptions to the **SAME** body panel
- **ANY and ALL** exceptions to wheels, chrome, alloy and/or aluminum *must be verified*
- **ANY and ALL** exceptions to "Roof Panels" (Damage Area 37) *must be verified*
- **ANY and ALL** MISSING Parts (i.e. moldings, panels, etc.) *must be verified*
- **ANY and ALL** MISSING keys and/or key fobs *must be verified*

In addition to the above criteria, **ALL SEVERITIES** of the following "Damage Types" must be verified:

When load sheets/EPOD transmissions are collected and reviewed, in addition to exceptions meeting the criteria above, the following will also **NOT** be entered:
